PANDORO CHRISTMAS TREE

METHOD

1. Unwrap Pandoro and put aside the sachets of vanilla icing sugar to be used later.
2. Cut Pandoro horizontally in thick slices. When the Pandoro is sliced this way you have a beautiful star shape.
3. Now stack the slices turning them slightly to offset the point so it will resemble a Christmas tree.
4. You can now layer with whipped cream, mascarpone, custard, chocolate or any topping you desire! Place a cherry or chosen fruit on each of the points.
5. Sprinkle with the provided icing sugar so it looks like snow and if you wish, put a Christmas decoration on top!

Buon Appetito!
